## EXPERIENCE

### Kindergarten Teacher - "Micii Valdenzi", Private Kindergarten, Bucharest

Jan 2019- Aug 2020

- Assist in designing a complete teaching plan.
- Follow the teaching plan.
- Teach personal, social and emotional skills.
- Use and organise learning material and resources.

### Personal Assistant at Medical Media Design

Sept 2018-Jan 2019

- Acting as a first point of contact: dealing with correspondence and phone calls.
- Managing diaries and organising meetings and appointments, often controlling access to the manager/executive
- Performing primary accounting duties;
- In charge with the social media communication

## PERSONAL PROJECTS

### Budget-app

Created with React, this app will give you an understanding of your finances and how you manage them over the year. The best feature is that it tells you how many days you work for an item you bought.

### Medical-website

In this project I used only HTML and CSS, and I followed a given design, using Zeplin. It was challenging to add everything exactly where it belongs and to make everything responsive. You can see the result on my GitHub page.

### Math-Game

It's a project that helped me practice my JS knowledge. It's a basic multiplication game that counts how many correct answers you can give in 60 seconds.

### Other Projects:

Drawing website, Photo Gallery with CSS Grid, Learning website with CSS Flexbox, Checkout form with Bootstrap, Stopwatch

## EDUCATION

### COURSES

#### Software Development Academy JavaScript from Zero

May 2021 - December 2021

This is the course where I've structured the information previously learned and understood the logic behind it. Having a trainer and a class makes everything easier and I can learn faster this way.

The course travels through HTML, CSS, Bootstrap, SCSS, Structured Programming and OOP, Advanced JS, ES6, GIT, HTTP requests, Async Await, Promises, JS Frameworks, CMS, Testing, React framework.

#### Udemy

#### The Complete 2021 Web Development Course

Sept 2020-Dec 2020

This course was a challenge, being the one where I've learned GIT, working with the terminal, ES6, JQuery, CSS Advanced and so many more. I've developed some of my projects during this course.

#### CodeBerry School

#### HTML, CSS (plus Bootstrap), JavaScript

May 2020- Aug 2020

CodeBerry School - HTML, CSS (plus Bootstrap), JavaScript.

This was a course without a trainer, but with lots of exercises and quizzes.

## FORMAL EDUCATION

### Faculty of Psychology and Educational Sciences, University of Bucharest

Domain: Pedagogy of primary and preschool education  
2016-2019

### Faculty of Midwives and Nursing, University of Medicine and Pharmacy "Carol Davila", Bucharest
